Email: seetharamu.asha@gmail.com

Professional Summary Experienced Java Developer with 5 years in application development, specializing in the full software development lifecycle: analysis, design, coding, debugging, and testing. Highly skilled in modern frameworks and technologies and committed to continuous learning and team collaboration.

Technical Skills

- **Languages & Frameworks:** Java/J2EE, Spring Boot, Spring MVC, Spring Batch, Spring Data, Hibernate, REST Web Services, Microservices, GraphQL, Swagger
- **Tools & Platforms:** Git, Maven, JUnit, Log4j, AWS (EC2, S3, Lambda), Jira, BitBucket, Bamboo, Confluence, Jenkins, Docker, Kubernetes
- **Databases:** Oracle, MySQL, PostgreSQL, MongoDB, DynamoDB
- **Additional:** HTML5, CSS3, JavaScript, AngularJS

Professional Experience

Deloitte - March 2022 - Nov 2025

Java Developer, IRS, Government and Public Services/Federal
Jan 2023 - Nov 2025

- Contributed to modernizing IRS applications by researching product features and prototyping use-cases, enhancing system efficiency.
- Leveraged MongoDB and DynamoDB for effective data management and performance optimization, handling large data volumes.
- Actively participated in scrum calls and sprint planning to ensure timely delivery of project milestones.

Associate Developer, Healthy Innovations Platform (HIP) Consulting
Services/Health Insurance, 6 months

- Facilitated offshore development coordination, translating business and technical requirements into actionable tasks.
- Executed MongoDB scripts for data manipulation and ensured adherence to client guidelines during enterprise releases.
- Engaged in scrum ceremonies to keep the team aligned with project goals.

Solution Analyst, Georgia Integrated Eligibility System (GA IES) Government and Public Service, 4 months

- Improved Georgia Gateway's customer portal by integrating new designs and functionalities using Nextgen framework.

- Utilized EJB for business logic implementation and SQL for data manipulation, enhancing system interoperability.
- Collaborated with the functional team to clarify requirements and ensure robust design flow.

Cognizant - July 2018 - Nov 2019

Product Analyst, AIG, Insurance - 6 months

- Developed backend solutions with Spring MVC and Hibernate for policy product enhancements, increasing system functionality.
- Managed defects using HP Quality Center and executed SQL queries for data analysis, ensuring high-quality deliverables.
- Maintained project artifacts, including code review checklists and unit test documentation.

Jr. Java Developer, Promontech [Mortgage Client] - 8 months

- Created RESTful APIs and GraphQL queries to support frontend applications, improving data accessibility and integration.
- Implemented CI/CD processes with Jenkins, ensuring smooth automatic builds and deployments, and maintained code quality with SonarQube.
- Participated in design meetings to discuss software modifications and enhancements, contributing to agile development practices.

Education B.S. in Computer Science

Rutgers University, School of Engineering, New Brunswick, NJ
